Learning Objectives

- List the smoking disparities among California's priority populations
- Describe three social determinants and their relationship to health behaviors such as smoking
- Identify one policy and one industry practice that help explain commercial smoking/tobacco use disparities among American Indian & Alaska Native people (AIAN).

Our Speaker

Jackie Kaslow, DrPH, MPH, Adjunct Assistant Professor, UCSF School of Nursing, Social and Behavioral Services, and Project Director, Red Medicine Tobacco Prevention, Native Star Foundation

Dr. Kaslow has 20 years' experience in public health and health care services delivery. Her career began at UCLA in 1998 in clinic operations, continuing education for health professionals, and bench to clinic translational research. In 2008, she joined the California Rural Indian Health Board (CRIHB) as the Director of Family and Community Health Services, and in 2014 she left CRIHB to pursue her doctorate in public health. Her recent public health practice in tobacco has included collaborations with UC Davis teams on the CA Quits project, UCSF/USC faculty on the dual use tobacco and marijuana among AIAN young adults, Indian Health Service on improving tobacco screening and treatment in tribal clinics, and as the Director of the Red Medicine Tobacco Prevention Project addressing commercial tobacco disparities among AIAN in CA's Central Valley. These efforts focus on health care systems change to address commercial tobacco disparities and the integration of evidence-based tobacco treatments into clinic settings. Dr. Kaslow's tribal lineage is Miwok, Nissenan-Maidu, and Pit River.

California Northstate University, College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. In accordance with the Accreditation Council for Continuing Medical Education's Standards for Commercial support, all planners, teachers, and authors involved in the development of CME content are required to disclose to the accredited provider their relevant financial relationships. Relevant financial relationships will be disclosed to the activity audience.
